

CLEAR THE COMPLEXION OVER NIGHT

Pimples, Rash, Eruptions, Etc., Quickly Eradicated by New Skin Remedy.

Since its discovery one year ago, posium, this new skin remedy, has, in its extraordinary accomplishments, exceeded the most sanguine expectations of the eminent specialist who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurements of years standing. The terrible itching attending eczema is stopped with the first application, giving proof of its curative properties at the very outset.

In less serious skin affections, such as pimples, rash, herpes, blackheads, acne, barbers' itch, etc., results show after an overnight application, only a small quantity being required to effect a cure. These who use posium for these minor skin troubles can now avail themselves of the special 50-cent package, recently adopted to meet such needs. Both the 50-cent package and the regular 12-cent package are sold in Norwich at Lee & Osgood's, and other leading drug stores. Posium is also on sale in Putnam at Larue's; in Danvers at Woodward's, and in Willimantic at Cieselski's.

Samples for experimental purposes may be had free of charge by writing direct to the Emergency Laboratories, 12 West Twenty-fifth street, New York City.

Cold Cream

This is the month you need Cold Cream to keep the skin smooth. A good Cold Cream softens the skin and keeps it from chapping. It prevents roughness and chafing. We warrant THE LEE & OSGOOD COLD CREAM to be pure. Not to cause hair to grow or become rancid. Our Cold Cream is prepared of ingredients of the highest quality. Generously and exquisitely perfumed and of rosy fragrance. The quality of our Cream should commend it to all who seek the best. In handsome porcelain jars—15c.

FRESH MUD ON JURASZ AND RIDISZ

Seen on Their Way to Flanders Labor Day Morning—Boarder Never Saw Katie After that Morning.

At the opening of the criminal superior court here Thursday morning the cross examination of Lukasz Zalyska was commenced soon after the session opened, the direct testimony being finished soon.

After Wednesday, a storekeeper at Flanders, said he knew Jurasz and saw him in New London the Saturday before Labor day. Labor day Ridisz came to his store about 4 o'clock alone, Jurasz not being around. The next Tuesday he saw Jurasz and Ridisz in a New London saloon. Jurasz said the lawsuit was settled and Yurkewicz was out right. The Saturday after Labor day he saw Mike and his wife, Jurasz and two others near Judge Bush's place. When Ridisz called at the store his pants were muddy and there was mud on his sleeves.

Upon being recalled, Attorney Lawless said he received \$15 from Jurasz and \$15 from his wife as fees.

Angels Elzot testified to seeing Ridisz in Weintraub's store and of the mud on his clothes. Jurasz was not to be seen.

John Yurkewicz testified that he was born in Poland and had lived in Lyme six years. He knew Katie and she was his wife but they were not married as she had a husband in Europe but they intended to get married in time. She bought half of the farm from a man to whom it was sold by his son. He said he went to New York with his nine year old daughter the Saturday before Labor day and they returned the next Wednesday. He left Katie, Ridisz and the hired man of the farm, having had a talk with Katie and Ridisz before he left. He saw Katie pulled out of the water. Jurasz had boarded with him and borrowed money of Katie. The witness had been sued by Jurasz and his wife, who came there in March. The witness and Katie worked the farm on shares. At the end of two months Jurasz and his wife took and sold some butter and he put them out for robbing him. Jurasz went to New Jersey and his wife followed a month later, leaving trunks behind. She identified in the court room. After Mrs. Jurasz had left Jurasz returned with a boy. He wanted to take the trunks, but Katie would not allow it. After staying three days he was thrown out for trying to rob. He attempted to steal a stack of valued at \$40. While telling of the death of Katie the witness was crying.

FIFTY-FIFTH WEDDING ANNIVERSARY SUNDAY.

Mr. and Mrs. Louis Tetrault Were Married in Quebec, But Have Spent Most of Their Lives in Danvers.

Mr. and Mrs. Louis Tetrault of Carter street, Danvers, will on Sunday reach the fifty-fifth anniversary of their marriage. They celebrated their golden wedding, which occurred also

LOUIS TETRAULT.

of a Sunday, by a solemn nuptial high mass in St. James' church. There were many relatives present then. They are both in excellent health. Mr. Tetrault being about the thorough day.

Mr. and Mrs. Tetrault were both born in Mariville, P. Q., in which city they were married Feb. 14, 1854. A few years later they moved to Danvers and for the past fifty-one years have been residents of that place. Mr. Tetrault is 83 but as spry as one much younger, while Mrs. Tetrault is 74. They have a host of friends in the

MRS. LOUIS TETRAULT.

borough and they will receive the calls of them on Sunday, when congratulations will be extended and their guests given a hospitable welcome.

They had twelve children, four of whom died. Felix and Amedea reside in New Bedford, but the others are in Danvers. Emily, Mary, Isaac, Louise and Joseph. It is expected there will be a family reunion in the afternoon in observance of the anniversary, there being but few couples privileged to celebrate fifty-five years of married life.

Work for California. Many people wish that California's legislature, like those of some other states, would devote most of its attention to limiting the sale of cigarettes and improving hotel accommodations. —Washington Star.

Work on an elaborate hydroelectric scheme is about to be commenced in Simla. Nearly all of the details have been worked out, and great expectations are entertained by the inhabitants of the summer capital of India of comfort and convenience that will be derived from this new improvement.

According to the accepted authorities there are 3,424 spoken languages in the world today, or, perhaps, it would be accurate to say dialects. Of this number 37 are Asiatic, 187 European, 276 African, and 1,824 American. By far the greater number of these belong to savage and semi-savage tribes and nations.

Jurasz went to the Kux farm after being put out and had cut brush near the hole where the body of Katie was sunk under water. His wife told him about Ridisz, at whose house she had boarded in New Jersey. He decided going to New York after Katie and paying money to Ridisz for her. He met Katie at Mrs. Kallinsky's and Ridisz brought her to the Lyme farm. Later Ridisz came to the farm a half hour before the witness and his daughter started for New York the Saturday before Labor day. He told of Mr. and Mrs. Jurasz coming to the farm.

Mike Topasz testified that he met Jurasz and Ridisz together in the road about one-eighth of a mile from his house. He said they went about 4:45 Labor day morning and they were going towards Flanders. He talked with them about getting the trunks and that their New London lawyer was no good and they were going to get another. Both had mud on their trousers, the mud being wet. There was more on Ridisz than on Jurasz.

Peter Pzenek of Lyme, where he has lived ten months, testified. He knew John and Katie Yurkewicz and boarded their house six months. He was employed in Raymond sawmill ten or fifteen miles from the Yurkewicz house. He worked Labor day. He knew Jurasz, meeting him at the Yurkewicz house.

He left the house at 6:15 Monday morning. He left Ridisz, Vladoc and Katie there in the kitchen. He went to work, returning at noon. Vladoc was there. He talked with Vladoc, and then went to Topasz's, and stayed there a half-hour. It was then about 1 o'clock and he was in about a half-hour. He did not look for Katie. He never saw Katie after Labor day morning. He saw Jurasz from the farm house in the evening, going towards Kux's, where he was living.

On cross-examination, he said he did not see Jurasz there Saturday, Sunday or Monday. He saw Jurasz in the sleeping rooms and said he got his own breakfast Monday morning. The other three appeared before he left, but nothing was said. Ridisz and Katie occupied the same room.

Court adjourned at 4:30 until Monday morning at 1 o'clock. There will be no recess today, because of Lincoln's birthday anniversary and the cause of the loss today court will sit on Monday.

HANDLING THE BUSINESS OVER AT STONINGTON.

Burned Pier at New London to Be Rebuilt—Loss from \$75,000 to \$80,000.

Going over the loss carefully the New England Navigation company's officers could not see, they said, where the damage would be less than \$75,000 and expected that when all claims of shippers were presented the aggregate of loss would reach closely to \$80,000.

Hardly was the news made known to officials of the company before arrangements were begun to have the business of the Norwich line transferred to Stonington, where the boats will load and unload temporarily. It may be several months if this change is made before the wharf can be put in shape again.

The wharf was ordered to Newport and left port at 12 o'clock Monday to repair. The steamer New Hampshire will take her place on the line.

It is said that the company will be build and that they will have a modern structure that will enable the handling of business at a saving of \$25,000 a year when they resume.

The wharf was constructed entirely of yellow pine. It was built during the winter of 1887 and 1888 at a cost of \$70,000.

The New Hampshire left from Stonington for New York Monday night, the passengers being sent there from New London at 10:45 o'clock, and a train leaves Stonington for New London in the morning between 4 and 5 o'clock.

Could Not Test Cure.

The recent blizzard throughout the southwest proved to be a bad time to test the theory of curing rheumatism by walking barefooted through a field of alfalfa.—St. Louis Globe-Democrat.

Hospitality.

"And did you enjoy your African trip, major?" How did you like the natives?"

"Oh, they were extremely kind-hearted; they wanted to keep me there for dinner."—London Opinion.

Busy Man.

If Brother Myers of Orleans is required to take a separate oath for each of the several town officers he holds, he will keep him swearing all winter.—Yarmouth Register.

[From New York World, June 10, '98]

DRUGGIST SAYS COOPER WOKE UP RECENTLY

Westerner Claims Everybody Will Have To Take His Medicine Eventually.

New York has never before witnessed such a spectacle as may be seen every day at Broadway and Ninth street. It is here that I. T. Cooper, the Western stomachicologist, who claims that stomach trouble is at the bottom of all chronic ill health, is meeting the public.

It would be difficult to estimate just how many people call to talk with Cooper during a single day. The store where he is holding forth seems to have become the Mecca for ailing people in New York, and the amount of medicine he is dispensing is enormous. In addition to what he sells himself, druggists generally throughout New York are handling his preparations out in unlimited quantities.

A leading druggist said recently: "The public seems to have lost its mind over this man Cooper. Personally I don't know anything about his medicine. I have nothing to do with his coming to New York, and he has until recently sold his preparation entirely through one company. I suppose he thought New York was like one of his Western towns and everybody could be supplied from a corner drug store. He woke up about a week ago and put it on sale everywhere. Since then we have been selling it. I don't know how long this demand will last, but I have never before seen anything like it."

In an interview Monday afternoon Cooper said: "I am not making any wild claims for my medicine. All it does is to stimulate the gastric juices and regulate the digestive organs, but people do not realize the reason for most of their health would be if only their stomachs were not languid and enfeebled by years of abuse."

ARE TAKING LESS PATENT MEDICINES.

Highly Recommended Home Recipe for Kidney Trouble.

There are more cases of kidney trouble here now than ever before, while recent reports show that more people succumb each year to some form of kidney disease than any other cause. While there is sickness, examine the urine. Rheumatism is only a symptom of kidney trouble. It is nothing more or less than excessive uric acid in the blood, which the sluggish inactive kidneys have failed to sift out, leaving it to decompose and settle about the joints and muscles, causing intense suffering; frequently resulting in deformity; often reaching the heart, when death ensues.

Pains across the back, frequent urination and suppressed urination are not the only signs of kidney trouble; many cases of stomach disease, headache, pain in the heart, indigestion, etc., are but symptoms; the cause of which can be traced to feeble, clogged kidneys.

A simple test of the urine is to add a small quantity in a bottle or glass and let it stand over night; next morning, if there is a reddish brick-dust sediment, or white, fleshy substance present, either consult some reputable physician or take a good vegetable treatment. The following prescription is recommended highly in these cases, and the sufferer can mix it at home; Compound Kargon, one ounce; Fluid Extract Dandelion, one-half ounce; Compound Syrup Sassafras, one-half ounce. Shake well and use in teaspoonful doses after each meal and at bedtime.

Where any of the symptoms enumerated above are present, good results are sure to follow immediately the use of this simple prescription.

Three Sabbaths Every Week.

Morocco is a country of many Sabbaths. The first three days I spent in Tangier were all Sabbaths. Arriving on a Thursday night the next day was Friday, the Mohammedan Sabbath, which was followed by the Jewish Sabbath—the Hebrew element in Tangier is considerable and strict in religious observance—and that in turn by the Christian Sunday. Subsequent comparisons, however, revealed little difference between any days of the week. On the Mohammedan Sabbath a black flag is hoisted on the minarets at the prayer of dawn, instead of the white flag that announces the time of devotions on other days. It remains up until the middle of the forenoon, by which time everybody is supposed to have found out what day it is.—N. Y. Post.

The Better Part.

A delightful little story is told of Prosper Merimee, the French author. He was once guest at a royal hunt, when hares, pheasants and other game were driven before the emperor and his followers, and the servants picked up the victims of the sport.

Among all the members of the hunting party, Prosper Merimee alone had no trophy to display.

"How does this happen?" asked some one.

"Where game is so plenty, the merit of a marksman seems to me to lie in hitting nothing," replied Merimee, with grave courtesy, "so I fired between the birds."—Youth's Companion.

Ups and Downs.

"Matrimony has its ups and downs," remarked the scantly haired benedict "What's the answer?" queried the confirmed bachelor.

"It keeps the wife busy trying to keep up appearances and the husband busy trying to keep down expenses," replied the other with a large, open face sigh.

Knew He Gave It.

The Chinese who gave \$20 to uplift the benighted of Arkansas may have been reading about Senator Jeff Davis of that state.—New Orleans Times-Democrat.

The Ayes Win.

"Castro says the one desire of his life is to retire from the public life and to live in a quiet home."—Washington Post.

Officer.

"Officer," said the whimsical tourist to the big, strapping policeman who had saved him from being run over by an automobile, "you remind me of a character in one of Kipling's stories. You've heard of Kipling?" "Kipling?" said Officer Hooligan. "Sure! He runs a club in London about four blocks from where I live. Trot along, sonny."—Chicago Tribune.

Measures Hardness of Metals.

An instrument to measure the hardness of metals has been recently devised, more especially designed and found very useful in the manufacture of tools like twist drills, where the hardness has to be kept between narrow limits. It consists of a glass tube, within which a steel ball of 40 grains weight, treated by a special process so as to have jewel hardness, falls freely. The height of the rebound of the ball measures the hardness of the metal it strikes. Were the area of contact between the dropped weight and the metal larger, so that no appreciable dent were made, the rebound would be a measure of elasticity rather than hardness. The height of the rebound is measured on a scale, of which 100 is the average hardness of carbon steel, which is also found to be the safety limit for steel tools after reheating and tempering ready for use.

Log Far Underground.

Wood 404 feet underground in a perfect state of preservation was found at the Albano stock farm the other day while boring for the second artesian well there. The drill had penetrated to a depth of 400 feet and had just been drilling hard rock when it suddenly struck a log which was five feet in diameter and in perfect state of preservation.

How a log could be so far underground and underneath a ledge of rock in perfect condition is a question that is puzzling the officials of the bureau of agriculture.—Manila Times.

The Language of Science.

"I must say," remarked the plain every-day man, "that I feel as if I had a cold in the head. And I'm so hoarse I can hardly speak."

"I see," answered the scientist. "You are suffering from a slight ecchyma, causing congestion of the mucous membrane and suffusion of the optical organs, and inducing a somewhat rheumatic condition of the pleopodia. Perhaps, however, you had better send for a physician."

"Send for a physician? No. I don't want a doctor. Send for an interpreter."

Literary Hit.

"Did your friend make a hit at the literary club?"

"I guess he did. He pronounced 'Los Miserables' in a brand-new way and then alluded to it as Victor Herbert's masterpiece."

Laugh is on Him.

How George F. Baer must despise such a winter as we have had!—Chicago Record-Herald.

DON'T WORRY; It Makes Wrinkles.

Worry over ill-health does your health no good, and merely causes wrinkles, that make you look older than you are.

If you don't don't worry, but go about it to make yourself well. To do this we repeat the words of thousands of other former sufferers from womanly ills, similar to yours, when we say,

Take Viburn-O.

It is a wonderful female remedy, as you will admit if you try it.

Directions for its use are printed in its language with every bottle. Price \$1.25 at druggists.

FRANCO-GERMAN CHEMICAL CO., 156 West 120th Street, New York, mar10

LEGAL NOTICES.
